CONTRACT VEHICLE

U.S. Navy WEXMAC TITUS Awardee

Contract N00023-25-D-0068
An established vehicle supporting competition for applicable expeditionary logistics and mission-support task orders worldwide.

WHY PACIFIC DEFENSE CONTRACTING

Responsive coordination | **Regional execution** | **Multi-modal delivery** | **One accountable partner**

Integrity | Dependability | Excellence

CORE CAPABILITIES

End-to-end support in theater

From a single urgent requirement to a coordinated exercise package, we align the people, equipment, transport, supplies, and services that keep operations moving.

01	**Procurement & Supply** Responsive sourcing for bases, ships, embassies, and field teams.	Mission supplies; construction and office materials; communications equipment; consumables
02	**Transportation** Passenger and cargo movement from routine transfers to heavy haul.	Vans, buses and utility vehicles; box, wing, container and low-bed trucks; truck crane
03	**Material Handling** Receiving, staging, loading, warehousing, and onward movement.	Forklift, crane and manlift support; container handling; on-site logistics coordination
04	**Aviation Support** Ground support aligned to aircraft schedules and mission requirements.	Jet fuel and into-plane service; ground handling; passenger, lodging and aircrew coordination
05	**Exercise Sustainment** Field infrastructure and recurring services for camps, bases, and exercises.	Tents, cots, lighting, generators, water, sanitation, catering, waste and climate control
06	**Port & Maritime** Ship-side logistics, port access, cargo movement, and local coordination.	Crane support; ship spares; equipment delivery; adaptive support as requirements change

Flexible by design. Support can be scoped as a single service, coordinated multi-modal movement, or recurring sustainment package built around the mission schedule.

OPERATIONAL EXPERIENCE

Execution across air, land, and port

Selected supported activity across aviation, heavy transport, ship-side delivery, material handling, warehousing, and multinational field operations.

AVIATION GROUND SUPPORT

SHIP-SIDE DELIVERY

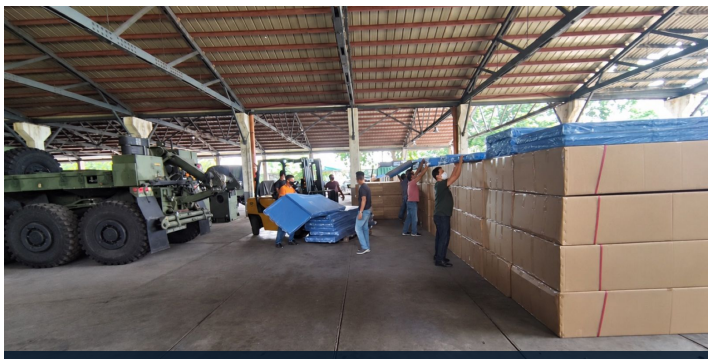

MULTINATIONAL FIELD SUPPORT

MATERIAL HANDLING

MODULAR FACILITIES

WAREHOUSE RECEIVING

Operational photographs are examples of supported activities and operating environments. Government and military references, markings, equipment, or facilities are descriptive only and do not imply endorsement.

DELIVERY APPROACH

One accountable logistics partner

Responsive coordination	Rapidly organize local resources and adapt execution as schedules, locations, and requirements change.
Mission-focused delivery	Align sourcing, movement, handling, and sustainment services to operational priorities and readiness.
Regional execution	Coordinate air, land, and port support across the Indo-Pacific through practical, hands-on management.
Compliant performance	Execute with attention to safety, documentation, access requirements, quality, and ethical conduct.
